

GOP TUN

DJ SET

Gop Tun is a São Paulo-based party, record label and a unique ensemble, embodied by Bruno Protti, Caio Taborda, Fernando Nascii and Gui Scott. A fusion of passions and ambitions, solidified by a complementary musical foundation and the belief that parties should be truly fulfilling experiences. A cohesive system of selective curators and curious minds, emerging from challenging times in the city's nightlife and successfully establishing themselves on the map amongst discerning musical experts and party-goers worldwide.

With monthly full-blown parties featuring diversely strong international headliners and two Dekmantel Festival editions brought to São Paulo under their supervision and production team, the crew has come a long way in the 6 years since their first small backyard gatherings.

The revival of forgotten neighborhoods in their hometown, influenced by the choice of unusual locations for events, led to the diffusion of their singular blend across the cultural and vast universe of venues and festivals that currently defines musical entertainment worldwide. Covering every major city in Brazil, the crew soon took to the ocean, establishing a memorable network from Berlin to São Paulo, Amsterdam to Rio, Stockholm to Curitiba, New York to Bogotá.

The natural evolution to these organic connections came in the shape and form of a label. Focused on bridging the gap between local and South American artists with international names that headline their events, it became a harbor for healthy disregard of passing trends and paralyzing labels - a powerful melting pot of global rhythms.
