

GUI SCOTT

DJ SET

Gui Scott is one of those diggers who has the rare ability to wander through different musical styles consistently, keeping the dancers in the palm of his hand. Founder and resident of Gop Tun party label since 2012, he has been leading parties and memorable projects in São Paulo and all over Brazil, Gui is that kind of artist that feels comfortable to play in basically any kind of place with the same fluidity and dominance of the dance floor, either it's an industrial shed for thousands of people at a techno party, on a boat in the coast of Bahia or in the middle of Rio de Janeiro's Carnival.

House, Techno, Disco, Boogie or Zookie - his only concern is not to leave you standing on the dance floor. And he will not!
