

NASCII

DJ SET

DJing since 2004, Fernando Nascii's relationship with electronic music has been as consistent and creative as his performances behind the decks. Despite the musical references undeniably rooted in House Music, Nascii also transits flippantly with genres like Disco, Acid House and Techno.

This versatility led Nascii to create the Gop Tun crew, party and record label that has given prominence and deeply altered the scene of electronic music in Brazil. Gop Tun, by all means, became a fertile ground for Nascii's talent to find the space needed to grow and, as a result, start traveling Brazil and the world to perform in clubs, parties and festivals. If you see Nascii in a booth, the footwork will be natural and constant just in the same way as he travels through the music.
