

TYV

LIVE / DJ SET

TYV is the pseudonym of Bruno Protti, producer and DJ from São Paulo. Known for unpredictable, versatile, hypnotic and almost mystic sets that blend downtempo to energetic tracks, he puts the dancefloor in a frenetic state - always with the aesthetic sensibility of those who are already living in the future. His work is a mix of House, Disco and many other genres. TYV's creativity comes out relentless in his live presentations, rich in acid and anarchic zones influenced by AfroOriental permutations with balearic pinnacles.

One of Gop Tun founders and the main responsible for the party's visual concept, TYV is a true performative and charismatic chameleon, for the ease of transitions in formats, DJ Set or Live, or for the different chapters in their presentations.
