

# TESSUTO

DJ SET

Paulo Tessuto wanders through Brazilian and international cultural scene as a force that mixes engagement, fun and madness of purest quality. He is a media multiverse guy: creates fanzines, makes videos and his greatest talents are applied as DJ and producer. Tessuto's transgression and cultural effervescence is catabolized in the itinerant party Capslock. Created in 2011, the project's visual identity has been totally conceived upon the image of a nerdy and hypochondriac "opinion deformer" and keyboard designer - one of the explanations for the party's name.

Sometimes dressed in drag, Tessuto loves to defy, experimentalize, hypnotize and amaze. He also runs the MEMNTGN label alongside L\_cio (music producer Laercio Schwantes), globally distributed by german agency Kompakt. "Second Hand Food" (2017) is MEMNTGN's fifth EP and Tessuto's first for the label. As a producer, he has tracks launched by Gop Tun, Magic Black, Rainbow Socks, Future Visions and Scandalo. His first vinyl EP was released in 2014.
